

Date: 2012.12.06

Activity:

- Litter collection

Litters were collected from three different sites in Tochigi, Karasawa yama forest as indicated below:

Note: 1m *1*m litter traps were installed in three watersheds to monitor the litter-feed components such as radionuclide tracers and SOC inputs.

(A)

Watershed name: KS22
Species: Japanese cypress (Hinoki)
Number of litter trap: 4
Since: 2010.08.03

Litter traps in Hinoki forest of KS 22 watershed

(B)

Watershed name: KS24
Species: Japanese cypress (Hinoki)
Number of litter trap: 5
Since: 2011.04.01

Litter traps in Hinoki forest of KS 24 watershed

(C)

Watershed name: KS31
Species: Japanese cedar (Sugi)
Number of litter trap: 5
Since: 2011.04.01

Litter traps in Sugi forest of KS 31 watershed
